Grandma's Boy

SHOULD BE STARTED RIGHT IN LIFE

The best way to start him right is to give him some gilt edge securities. These will not only teach him the value of saving, but will prove a basis for his business life. The People's building and Loan Association offers a splendid opportunity for Ardmore people to invest in substantial home industries.

Grandma's Boy

Lives in a magic world compared to what Grandma herself used to know in the early days of her life. Grandma's boy is reared in a house that is heated by the mere turning of a little lever. Grandma's boy is reared in a house that is brilliantly lighted by the mere pressing of a little button. Grandma's boy has his food cooked on a stove that is heated by electricity—Grandma knew none of these comforts.

The heat for her home was supplied by logs that Grandpa or his servants went out and cut from the forest. The light for her home was supplied by a tiny, flickering candle.
